Assignment 2.2

I chose this Image for this assignment because I really like how beautiful and magical it looks. My favorite part is the big glowing circle in the middle. I love the goldent colors, beautiful dresses, and bright lights. when I look at this Image, I feel happy, amazed, and curious about what is inside the glowing circle.
This assignment helped me learn that art is not just about drawing or painting. we can also use technology and AI to create beautiful Images. I learned from John Andrew that Imaginations and creativity are Important in art.

overall, I enjoyed creating this Image because it shows how creative AI can be, I chose it bease it caught my attention and made me feel like I was looking at a magical wold. I think art is special it can make people feel different emotions.
